The Honorable Julius Genachowski, Chairman
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Re: DA 12-1863, IB Docket No. 12-340; RM-11683

Dear Chairman Genachowski:

The FCC's proper use of the spectrum can be a key stimulant for our economy. We have seen tremendous economic growth associated with the mobile broadband network. That growth is likely to continue and should be encouraged by your agency.

LightSquared's application for a license modification presents the FCC with another opportunity to move our economy forward. When approved, LightSquared will be able to provide more jobs and business opportunities that will have a wide ranging positive impact on our economy.

I reside in a state that well knows the problems associated with the current economic downturn. We need to open every possible door for companies that are willing to expand and add employees. LightSquared is one of those companies.

I ask that the FCC to complete its due diligence as quickly as possible so that LightSquared can proceed.

Thank you for your attention to this matter.

Sincerely,

Doug Moffat
